The undersigned Assignee hereby certifies that it is the assignee of the entire right, title, and interest in the patent application identified above by virtue of a chain of title from the inventor of the patent application identified above to the current assignee as shown below:

From the inventors to The University Court of the University of Glasgow,
which Assignment was recorded in the Patent and Trademark Office on May 17 1999
at Reel 9954, Frames 27-29.

The document(s) in the chain of title of the patent application identified above have been reviewed and, to the best of undersigned's knowledge and belief, title is in the assignee identified above.

The undersigned (whose title is supplied below) is empowered to sign this certificate on behalf of the Assignee.

I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements, and the like so made, are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

The University Court of the University of Glasgow
